

# WE MAKE INSPECTIONS EASY NO MATTER WHAT YOU INSPECT

FIRE

BUILDING

CODE ENFORCEMENT

COMMUNITY DEVELOPMENT

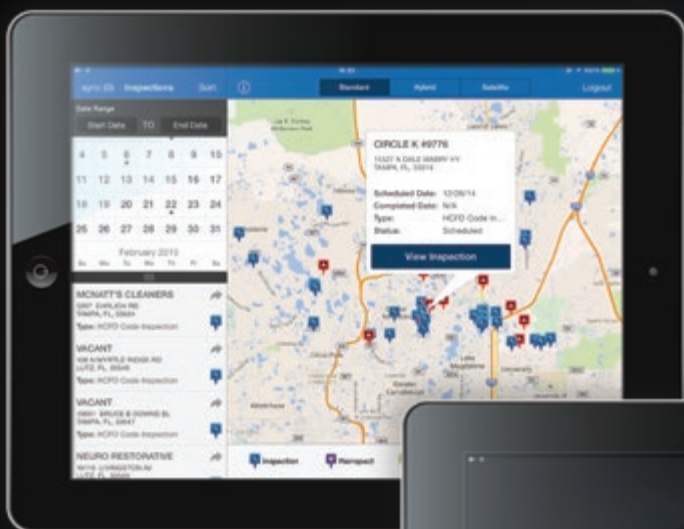

**STREAMLINE INSPECTIONS** is designed to make inspections easier and more cost effective to manage. We also designed it to work the way you work: our iPad based software goes anywhere you need to go. No shuffling multiple inspection forms. Just you, your iPad, and Streamline Inspections. It's the most intuitive and versatile inspections application on the market. Contact us today for a free demonstration and let us show you how easy inspections can be.

# ALL THE TOOLS TO MANAGE ALL YOUR INSPECTIONS ALL THE TIME.

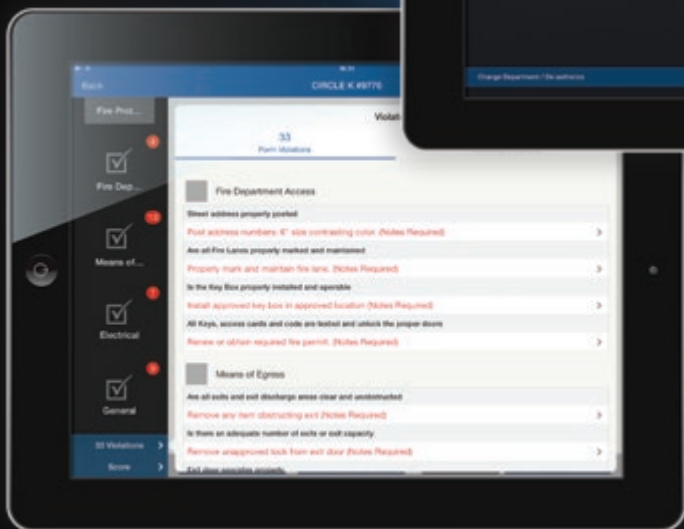

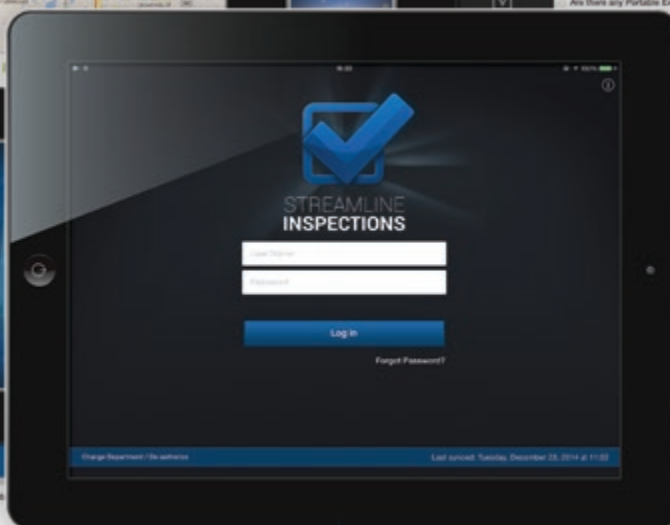

## MAPPING & OCCUPANCIES

- Create Occupancy Records in the Field
- Create Inspections in the Field
- Google Map Routing
- Mobile Push Notifications

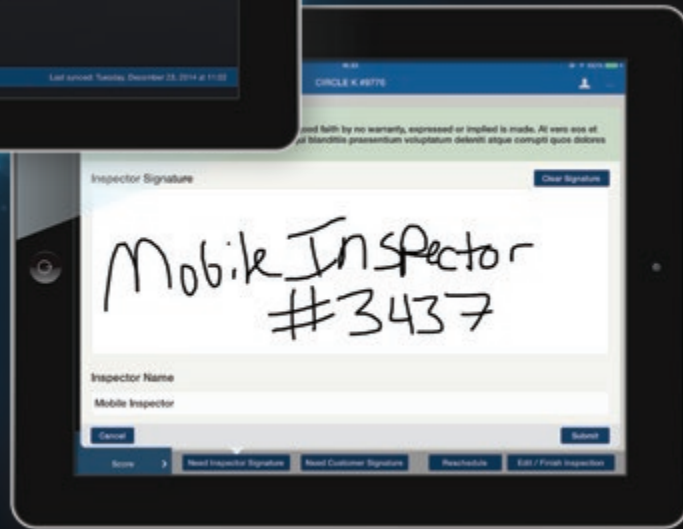

## CHECKLISTS

- Customized Checklists
- Dynamic Rules Supported
- Require notes and Photos
- Multiple code sets supported

## VIOLATIONS

- Add Violations not associated with your checklist
- Mark violations repaired on site
- Different Reinspect dates for each violation
- ICC and NFPA Codes Available

## SIGNATURE CAPTURE

- Capture signatures
- Issue notices & permits right on the spot
- Schedule a re-inspection

Cloud infrastructure with 24x7 realtime access and offline availability makes Streamline Inspections easy to manage: no server installations, database backups, or IT support. Just download the app and go. User defined checklists, dynamic rule sets and push notifications maximize efficiency. Multilevel properties can be managed by floor, not by building. New occupancies or properties can be added on the fly. Without a shred of paper. Call today for a free demo.
